

# C O N T E N T S

<b>INTRODUCTION.....</b>	<b>1 - 2</b>
<b>I. "DOLOMITIZATION" RECONSIDERED .....</b>	<b>3 - 23</b>
What diagenesis?.....	3
Models of "dolomitization" .....	4
High-temperature syntheses .....	6
Replacement .....	8
Laboratory evidence .....	11
Huntite and norsethite .....	14
Solid state diffusion.....	15
Microtextures.....	18
Discussion.....	19
<b>II. SOLID SOLUTION OR SUPERLATTICE ?.....</b>	<b>24 - 54</b>
Mixed crystals .....	24
Structural chemistry.....	26
X-Ray analysis.....	29
Diffraction signal .....	30
Stacking faults .....	32
Stoichiometry .....	34
Magnesium calcites .....	39
Calcite, aragonite and dolomite.....	48
Discussion.....	50
<b>III. NEODOLOMITE RE-EXAMINED.....</b>	<b>55 - 74</b>
The precursor.....	55
Superstructure reflections.....	57
Degree of order.....	58
Formation of superlattices .....	59
Exsolution.....	61
Phase relations .....	62
Disordered dolomite? .....	66
Discussion.....	70

---

<b>IV. REGIONAL ASPECTS .....</b>	<b>75 - 160</b>
Introduction .....	75
Afghanistan.....	75
Australia.....	76
Austria .....	84
Bahamas.....	84
Barbados .....	89
Belize .....	89
Bonaire.....	90
Botswana .....	93
Brazil.....	95
Canada .....	97
Chad.....	98
China.....	98
Colombia .....	99
Denmark .....	99
Egypt.....	100
France .....	101
Germany .....	101
Ghana.....	101
Greece.....	102
Hungary .....	102
India .....	103
Indonesia.....	105
Iran .....	105
Israel.....	106
Italy .....	110
Jamaica .....	110
Japan .....	111
Kenya.....	112
Libya .....	112
Mexico.....	112
Namibia .....	113
Netherlands.....	114
New Zealand.....	114
Pacific atolls .....	114
Persian (Arabian) Gulf .....	125
Russia.....	128
South Africa.....	131
Spain .....	131
Tanzania.....	135
Tunisia .....	135
Turkey.....	137
United Kingdom.....	138
United States.....	139
Dolomite in deep-sea sediments .....	147
Dolomite in caves.....	152
Discussion.....	153

---

<b>V. ORGANIC OR INORGANIC ? .....</b>	<b>161 - 187</b>
Introduction .....	161
Dolomite in reefs .....	162
Dolomite in peat and coal .....	165
Dolomite in dogs .....	168
Dolomite in pearls .....	169
Dolomite and algae.....	170
Dolomite and bacteria .....	172
Discussion.....	184
<b>VI. MAGNESITE AND HUNTITE.....</b>	<b>188 – 212</b>
<b>A. Magnesite</b>	
Introduction .....	188
Syntheses of magnesite .....	191
Occurrences of Recent magnesite .....	195
Amorphous magnesium carbonate.....	199
Hydrated magnesium carbonates .....	201
Dehydration barrier .....	204
Magnesia alba and hydromagnesite .....	205
<b>B. Huntite</b>	
Introduction .....	209
Recent deposits of huntite .....	209
<b>VII. DOLOMITE SYNTHESSES.....</b>	<b>213 - 275</b>
Introduction .....	213
Irreproducible results.....	218
Scheerer's experiment.....	221
Experiments by Pfaff.....	223
Experiments by Linck .....	227
Leitmeier's experiments.....	232
Experiments of Lalou .....	236
Experiments of Zeller, Saunders & Siegel.....	237
Erenburg's experiments .....	244
Budzinski's experiment .....	246
Experiments by Oppenheimer & Master .....	250
Liebermann's experiments.....	253
Experiments by Glover & Sippel.....	258
Experiment by Donahue & Donahue.....	261
McCunn's experiments .....	263
Experiments by Mirsal & Zankl.....	265
Deelman's experiments.....	268
Static controls .....	274

<b>VIII. MECHANISM OF DOLOMITE FORMATION.....</b>	<b>276 - 327</b>
Nucleation and statistics .....	276
Stability and metastability .....	279
Breaking Ostwald's Rule .....	283
Reversible or irreversible ? .....	286
Formation of magnesite .....	291
Dolomite formation .....	296
Organic or inorganic ? .....	306
Replacement ? .....	314
Looking back (and forward) .....	322
 <b>NOTES .....</b>	 <b>328 - 363</b>
 <b>REFERENCES.....</b>	 <b>364 – 482</b>
A – D .....	364
E – K .....	390
L – R .....	424
S – Z .....	458
 <b>APPENDIX I: <i>A tribute to Otto Liebermann</i> .....</b>	 <b>483 - 484</b>
 <b>APPENDIX II: Table II .....</b>	 <b>485 - 492</b>
 <b>APPENDIX III: The life and times of Commandeur Déodat de Dolomieu....</b>	 <b>493 - 515</b>
